*Knowing Figueroa Mountain for so many years, I've always admired it as an invaluable painting that's too superb to be confined in a Museum.*
*Instead, the immeasurable curved forms rise freely above the ground, allowing me to absorb fragments of its beauty and transform them into one of my special creations.*

*Joana Santos Barbosa*

Located in the sunny California on the south-west of the United States of America, the charming Figueroa Mountain is a magical landscape. Evoking the Californian mountain, Figueroa sofa has the same lines of the original armchair. The exterior represents the long curves of Figueroa mountain while the mountainside ripples were placed on the inside. The top of the sofa features the great bow of the skyline and the yellow tone of the ground is replaced by the base in brushed brass. Both soft velvet and brass are reunited in the soft curves that go all around this compact creation. Just like the mountain meets the land.

Young photographer Logan Deats lives in California where he captures outstanding views of Santa Barbara County. Thank you for letting Figueroa Mountain to become a part of INSIDHERLAND.
