*Since I can remember, I think of Alentejo as the most peaceful place in my Country. On the rolling plains of this land, thousands of cork oak trees open their branches to the sky and, in a powerful reunion, conceive an impressive scenario where time seems to stop.*

*Joana Santos Barbosa*

## ALENTEJO

TABLE LAMP

### DIMENSIONS

Height. 62cm | 24,40'' Width. 44cm | 17,32'' Depth. 44cm | 17,32''

VOLTAGE:	220-240VAC	110-130VAC
FREQUENCY:	50 to 60Hz	50 to 60Hz
LAMP:	E27 ; 60W max.	E27 ; 60W max.

Alentejo table lamp has the similar conceptual approach of the typical cork oaks trees we find in the South of Portugal, originally made by the Alentejo side table. Overlapped on branches opened in obtuse angles, the canopies are separated from their support bases, being gracefully balanced above the ground. The base in cast brass with patinated effect results of a careful sculpted work that highlights the natural details. Each root lightly touches the ground taking its own direction as shadows that vanish into the landscape.
