Knowing Figueroa Mountain for so many years, I've always admired it as an invaluable painting that's too superb to be confined in a Museum.

Instead, the immeasurable curved forms rise freely above the ground, allowing me to absorb fragments of its beauty and transform them into one of my special creations.

Joana Santos Barbosa

Located in the sunny California on the south-west of the United States of America, the charming Figueroa Mountain is a magical landscape. Evoking the Californian mountain, the luxurious Figueroa dining chair has the same lines of the original armchair. The long curves of this mountain were taken to the exterior and the mountainside ripples, that seem to have been dug by large fingers coming from the sky, were placed on the inside. The top of the chair features the great bow of the skyline and the yellow tone of the ground is replaced by the feet in brass.

Young photographer Logan Deats lives in California where he captures outstanding views of Santa Barbara County. Thank you for letting Figueroa Mountain to become a part of INSIDHERLAND.
