*I've always been fascinated by trees.
Big trees, exotic trees, bare trees, colored trees or just common green trees. For me,
there is nothing in this amazing World that can be compared to the fresh smell out
of a thousand shadows dancing in the wind while the sun bathes them with the
miracle of life. I could not live without them.
Thank you Inspiring Trees.*

Inspiring Trees table lamp is reinvented into a wall lamp. Geometric and seemingly minimal is fully handcrafted in brushed brass finished in gloss varnish and recreates a vertical 'treetop'. The light is distributed by the several levels and diffuses controlled by the geometry of the overlapping pieces, lighting the surrounding space in an unexpectedly way; almost ethereal.
